## BRING IT ON!

Pergo vinyl floors can take a whole lot more than a knock or two. If you're looking for a durable floor to beautify your entrance halls or other high-wear areas, look no further. **The new TitanV™ top protective layer efficiently seals the surface, offering improved resistance against staining and soiling, and protection against scratches.**

Get set for life!  
 Pergo vinyl floors come with a guarantee of up to 25 years.

Pergo vinyl flooring enables unlimited length and width of installation with no need for expansion profiles of any kind, giving your room a clean and modern look.

**Dreaming of an open-plan kitchen with large windows and lots of sunlight to brighten your day?** Then we have just the floor for you. But when it comes to letting in more sun, you also need to consider heat.

Our new vinyl floors are not only waterproof, but also prepared to deal with the extra warmth brought on by lots of sunlight. In fact, our expert manufacturing process enables us to guarantee stability that exceeds industry standards.

# Playing it safe!

**As a leading producer of flooring we are proud to guarantee that our floors are free from harmful phthalates.**

The reason is simple: we do not add any phthalates to our products. And because we only recycle material from our own production facilities, no phthalates will make their way into the production process from products made elsewhere.

**The result is  
100% phthalate-free  
– and worry-free – flooring!**

**Don't worry!**

We'll guide you through the installation process.

Thinking about doing it yourself?

**The PerfectFold™ V click system features vertical as well as horizontal locking.** The double locking gives the Pergo floor unique stability, and thanks to the new click system, installation is both fast and easy – faster than any vinyl floor on the market. Simply choose one of the three installation methods, and snap the floor into place!

Thanks to the double locking, there are no height differences or open joints. In fact, Pergo vinyl flooring offers unlimited installation in both length and width without expansion profiles of any kind which gives your room a clean and modern look. And if you need to, the PerfectFold™ V system means the floor can be easily removed and reused.

Watch the step-by-step videos on [pergo.com](http://pergo.com)

# Fast & easy installation with PerfectFold™ V system

Use the method that works best for you!

### Drop down

The ideal method for quickly installing a large area. Click the plank at the long side joint, slide it until it meets the end of the previously installed plank, and press down.

### Insert horizontally

Unlike many other brands, Pergo vinyl floors can also be inserted horizontally using our installation tool (don't use a hammer, it may damage the click joint). This is a handy option for places where it is difficult or impossible to tilt the planks (when installing the last row of planks, or under door frames and radiators).

### Angle

If you prefer, Pergo offers a third option for installing your new vinyl floor. Simply angle, and click the planks together at the short end.

Your floor is just a click away

### You'll be done in a second!

The surface treatment makes your vinyl floor durable as well as easy to keep clean.

### General maintenance

Vinyl floors are easy to live with, but as with most things, it needs regular cleaning to stay beautiful. The innovative surface layer with TitanV™ makes a specific treatment after installation unnecessary, and your floor can easily be cleaned with a broom, vacuum cleaner, or a damp mop. We recommend that you always use a non-aggressive maintenance product, like Pergo vinyl cleaner that maintains the original look of your floor. Do not leave a puddle of water on the floor.

### Periodic cleaning and maintenance

Clean the floor routinely by sweeping, vacuum cleaning or damp wiping. Always remove immediately grit, sharp objects, staining agents, moisture or aggressive substances from the floor. PLEASE NOTE: Never use aggressive cleaning agents, soap or abrasive cleaners or cleaners containing oil or waxes.

### Stain removal

Pergo vinyl floors are very resistant against staining and soiling. However it's always recommendable to remove stains as fast as possible. The longer spilled materials are left on the floor, the greater the risk of permanently staining. Persistent stains may be removed using Pergo vinyl cleaner.

### Industrial cleaning

In order to increase resistance and enhance cleaning properties of the flooring for commercial application, an appropriate sealer can be applied according to the instructions of the manufacturer of this product.

**EASY INSTALLATION** The PerfectFold™ V system makes installation quick and easy. Just fold the planks into place using one of the three methods, and you'll be done in no time.

**FIRE RESISTANCE** Pergo vinyl floors have a natural high resistance to fire. They are designed to meet all European requirements for installation in escape routes and assembly halls.

**WEAR PROTECTION** The surface of Pergo vinyl offers a multi-layer protective floor finish. The protective TitanV™ layer provides scratch, stain and wear resistance and easy maintenance.

**WATER RESISTANCE** Our Moisture Resistance System combines the waterproof floor with a strong and tight click joint. This gives Pergo vinyl floors some of the best moisture-resistance properties on the market.

**SOUND REDUCTION** The soft vinyl floor reduces step noise and provides a quiet and comfortable walking experience.

**HYGIENIC** A Pergo vinyl floor improves hygiene and makes it easier to maintain a clean home. The sealed surface prevents bacteria, and helps reduce the amount of cleaning chemicals you need.

**IMPACT RESISTANCE** Pergo's vinyl surface is multi-layer build-up. In combination with the dense core material it gives the floor a very high impact resistance and a low residual indentation, protecting your floor from potential damage.

**EASY MAINTENANCE** The Pergo TitanV™ protective layer is resistant to dirt and offers you low maintenance and effortless cleaning. The solid design of the click joints also keeps dirt from penetrating the joint.

**CASTOR CHAIR** The multi-layer build-up of Pergo vinyl in combination with the properties of the core are designed to withstand damage from castor chairs.
